1. Introduction

In this document all projects that have applied to the **BEFuture Acceleration Programme** are included, except projects with applicants registered in Catalonia (Spain)¹ and Flanders (Belgium)².

Projects that have been deemed eligible have been evaluated, ranked, and awarded based on the criteria defined in the ***Guidelines for applicants to the Call for the selection of innovative projects under the Acceleration Programme of the BEFuture Project*** (hereafter referred as Guidelines).

Conversely, projects that have been deemed ineligible have not proceeded to the evaluation phase and have been excluded from consideration in accordance with the eligibility criteria outlined in the Guidelines.

Key definitions

Project applications have been categorized into:

- **Selected projects:** Projects that have been selected to be awarded financial support under the BEFuture Acceleration Programme grant. You will be contacted by the BEFuture team to proceed with the contract preparation phase.
- **Projects in the reserve list:** Projects that have met the minimum evaluation criteria but cannot be awarded financial support due to budget limitations. If there are any selected projects that withdraw from participating in the programme, they will be prioritized for selection based on the ranking of their scoring. If that is the case, you will be contacted by the BEFuture team to proceed with the contract preparation phase.
- **Rejected projects:** Projects that have failed to meet the evaluation threshold of at least one award criterion, meaning they have been assigned less than 50 points out of the 100 points in one or more criterion of award.
- **Not eligible:** The application did not fulfil the minimum eligibility requirements set in the programme Guidelines.

All, except the projects deemed as not eligible, will soon receive a notification with the Evaluation Summary Report, summarising the findings of the evaluators.

As mentioned in the Guidelines, within 10 working days of the delivery of the formal notification, you may submit a request for redress if you believe the award criteria of the evaluation have not been correctly applied by sending an email to call-inquiries@be-future.eu.

¹ The projects with applicants registered in Catalonia will be communicated via the official channels from the Catalan Tourist Board.

²The projects with applicants registered in Flanders will be communicated via the official channels from Visit Flanders Convention Bureau.

BEFuture experts will review the complaint and recommend an appropriate course of action. If there is clear evidence of a shortcoming that could affect the final funding decision, it is possible that all or part of your application will be re-evaluated.
